Last Modified on 03/02/2021 5:47 pm GMT

The Cancelled Bookings Report can be generated for any time period you choose, is available to download or email & is also suitable for multi-venue reporting.

Please note that this report only shows confirmed bookings which were cancelled. Any provisional bookings or school bookings will not appear here.

For any cancelled bookings prior to 9th February 2017, the date/reason and person who did the cancellation were not stored within BookingsPlus, therefore this information will not appear on the report.
